

Agile Values

- Courage
 - a reasonable degree of risk-taking, but not reckless
 - quality and discipline increase speed
- Communication
 - Direct and frequent communications across channels
- Rapid feedback
- Simplicity
 - Directness in the code, communication and behavior
 - Keep the code simple. Keep the team simpler.

The Menagerie

Values over methods

- Adopt full 'Circle of Life'
 - Technical practices are the core
 - The loss of productivity is the corruption and degradation of the code itself
